

VSM A Closer Look!

A Professionally Managed Institute:

Unlike most institutions VSM is managed by professionals drawn from prestigious institutions, NRI's and top corporates. Management draws its strength from valuable inputs given by its stakeholders - academicians, industry, global partners, students and parents.

A Trusted Brand:

VSM has emerged as the most trusted brand among its students from surrounding areas and our students stand testimony to the fact. Academicians from prominent institutions of India have become the part of VSM community and are leading us towards academic excellence. What started as an aided college has now developed into a sturdy network with top corporates who guide our way and many companies recruit from us annually.

To imbibe quality of discipline, social responsibility within the students and focus on developing innovative and entrepreneur technocrats.
